THE NEWS BURNAU, OLNEYVILLE,

Michael Sullivan, a former resident of filliams street, Johnston, but at present in inhabitant of "Shoo-fly" village, got frunk Wednesday and instead of following his usual vocation when in that consition, and pounding his wife, he went put on the streets to find trouble. Near the foot of Broadway, about 5 o'clock, he met officer Dyer of the Sixth station. He tried to explain to that official that he didn't care for him or any one but Michael Sullivan. The officer concluded that a man who didn't care for anybody or anything had better go up to the commodious quarters erected by the city for such subjects, on Coffee street, so he sounded the police box at the junction of Westminster street and Broadway and ordered a carriage for Michael. It came, and he was given a fast ride to the staand he was given a fast ride to the sta-

Last evening Mrs. Sullivan was on the square inquiring if there was anything in the paper about her husband, as he had not returned home. As she was aware of his condition she thought it was time he had made trouble and been arrested, somewhere, if the officers had done their duty.

FINED FOR REVELING. The wife of Joseph Mason of Roger Williams avenue, Cranston, last evening complained to Chief of Police Bigbee that her husband had assaulted her and made threats against her. Mason was arrested last evening and this morning in the Eighth District court, was convicted of reveling and fined \$5 and costs for reveling, his wife declining to appear against him on the charges she preferred last evening. Cady's Station with outstretched arms to encircle it. Riverview is a comparatively new name, adopted by the summer people about 18 years ago. This settlement was formerly known as Cady's Station. Riverview also boasts another antiquity ni the shape of Mrs. Engstrum's cat. This beast is 21 years old, and has given birth to 114 kittens, a litter of six each, every year for 19 years, all born alive, and one solitary offspring last year that couldn't stand it.

The cat is called Tabitha, because, in 1751, Moses Lippitt married Tabitha Green. The namesake has no teeth, and Mrs. Engstrum feeds her on cup custards.

for his or her fun was in direct ratio to the number of birthdays already cele-brated. For instance, a youngster 8 years old could get in for 8 cents, while his grandmother who was 73 had to pay 73 cents, and so on up and down the 73 cents, and so on up and down the scale. But the show was so good that young ladies who only paid a quarter felt as if they had cheated somebody, and the old people got more than their money's worth.

money's worth.

The idea was suggested by Dr. Rowe, who preached at Shawomet Beach a year ago, and it was carried out very successfully by Mr. L. A. Kimball, with the hearty cooperation of all the cottagers. The feature of the show was the solo by Mr. Lawton, called the tune that killed the cow, and the cow died right there, thanks to Pascal Drowne, Mr. Reeves' bassoon player. This, however, was not much worse than the playing of the Greens Island orchestra for the first time. The leader of this organization time. The leader of this organization refused to give his name. OLD HOUSES AND MODERN COTTAGES. Of course it is well-known that the big town of Warwick has a history, but it does not seem to be appreciated that a good deal of that historic interest centers about numerous old buildings along what is called the West Shore, and right in the midst of the cottage clusters at every point of the beach, which puts out a little into the bay, and along the curving shores of the numerous coves. At River-view, for instance, there is the old Green mansion built considerably over a cen-tury ago. It was at first the property of the Nightingale family, passed to the Lippitts, then to Amos Green and next to his son Moses, who was born there in 1815, and died there in 1892, after having won the title of uncle to every man, woman and child in old Warwick. Now the possession of the estate is a question in the courts, and the heirs of Mrs. Stone and Mr. Albert Engstrung are the rival claimants. The house is on a bluff just north of the old mill cove, politely known as the Paschuchammuck Cove. But it was not high enough to escape the fury of the September gales in 1815, when the old kitchen was flooded and a fivefoot back log was floated out of the mammoth fireplae, and found later on Conimicut Point. There is brick enough in the chimney to build a modern tenement.

GRAVES OF THE SLAVES.

In the orchard back of the mansion there is a row of 18 sunken and unlettered stones, which mark the graves of as many negro slaves, at one time the possession of the Nightingale family, and probably the last of their kind before the abolition of slavery in this State, and in this obscure burial lot are the old stones of the grist mill now gracked with the of the grist mill, now cracked with the heat of a thousand clambakes.

THE GRUESOME HENVARD.

Across the cove and in the rear of the old Lippitt house is another burial lot strewn with old-fashioned blue stones that bear the birth dates and death dates, and the epitaphs of all the early Lippitts But they are flat now. A NEW RESORT.

Cottagers Are Enjoying the First Year of Nausauket Beach.

Just north of Conimicut, and on the shores of Occupessatuxet Cove, opposite Green's Island, there is a new cluster of Green's Island, there is a new cluster of cottages, which go by the group name of Nausauket Beach. It is a beautiful location, and has all the essentials of scenery, groves, beach and water front for a good quiet place to spend the summer in. The first settlers are John E. Cummings, the proprietor; Andrew Allen, Mr. Reynolds, Mr. Butler, Mr. Fiske, Mr. Martin, Charles Williams, Arthur Smith, E. R. Wixon, George A. Wilson, Mr. Potter, Mr. Tabeuer and their wives and children. They have not commenced to talk "casino" yet, but the ladies have organized a whist club, and they entertain alphabetically every Thursday the first party, of course being given by Mrs. party, of course being given by Mrs.

Lawton and Mr. H. H. French, with their families, are occupying cottages on the bluffs at Conimicut. There are not many of them, but they claim that Conimicut is the oldest name of all the Indian jaw-breakers along the shore, and there's a flag flying from every house.

The annual bowling tournament will begin tonight with 7 pins, 10 pins and the cocked hat games, for the best in 12 strings. There are about 25 entries for each contest, and the sport will last for the rest of the month. Bayside hops are set down for Thursday night.

There is no more picturesque or conspicuous cottage at any of the West Shore resorts than that of the artist, Elijah Baxter, Jr., at Bayside.

whist clubs, Mr. Pearce's yacht, and Mr. Dexter's aviary.

That there will be a Buttonwoods Casino next year is now practically a certainty. The greater part of \$5000 has been subscribed, and building will be begun this fall. The question of location is all that now remains to be decided, as there is some difference of opinion as to whether the building should be at the entrance to the grounds or on the bluffs overlooking the bay.

MORE ANCIENT HISTORY.

An Historical Structure Near Oakland Beach.

In July, 1777, one of the most daring acts of the Revolutionary war was the capture of General Prescott, who was in command of the British forces in Rhode Island, and with headquarters at Liver-ton. Lieutenant-Colonel William Barton of the Continental army went down to Warwick neck with a picked company of soldiers and embarked in tow boats for the cast shore of the bay. They went between Prudence and Patience islands, and with mullied oars got by the British and with muffled oars got by the British frigates Lark, Diamond, and Juno in safety and landed near the house where the British general was located. Here the company was divided up into squads and completely surrounded the house, while Colonel Barton went to General Prescott's sleeping room and effected his secretary. The Suicide Was Coming to this State

to Live.

A Swede named Englestrom, who is said to have been bound for one of the mill towns of this State, committed suicide by jumping from the White Star line steamship Majestic, on which he was a steerage passenger, last Saturday. He is believed to have had no relatives here but certain friends of his neighbors had written such pretty letters home about the country that Englestrom decided to make it his future home. He was accompanied by his sister and he seemed to be all right until late Friday, when he showed the effects of heavy drinikng. The officers of the boat had noticed him acting queerly, but were surprised at about 10 clock in the afternoon when the cry of man overboard was raised. Buoys were quickly thrown out and the great ship was stopped as soon as possible. Then a lifeboat was launched, but no trace of the unfortunate was found. He had disappeared just the same as a thousand men would have done, for the boat was in the middle of the Atlantic Ocean having sailed from Queenstown very early last Thursday norning. That the man had deliberately planned his death is shown by the fact that he left a letter in the care of his sister, which, when opened, showed he had left her all his earthly possessions, which included a very small farm in his native land.
